

## Virtual Visits: Adding a Participant to a Call

Care Team members can invite another person to a virtual visit call. This allows a provider, family member, or another Care Team member to participate in the patient's care. During the call, the Care Team member can send an invite to a third participant. When the person accepts the invite (via email), they will be placed in the call with the other attendees.

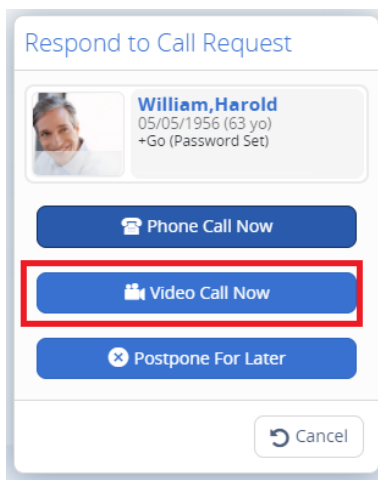

To add an additional person to a virtual visit:

1. Navigate to a patient profile with the +GO service level assigned. Click the camera icon.

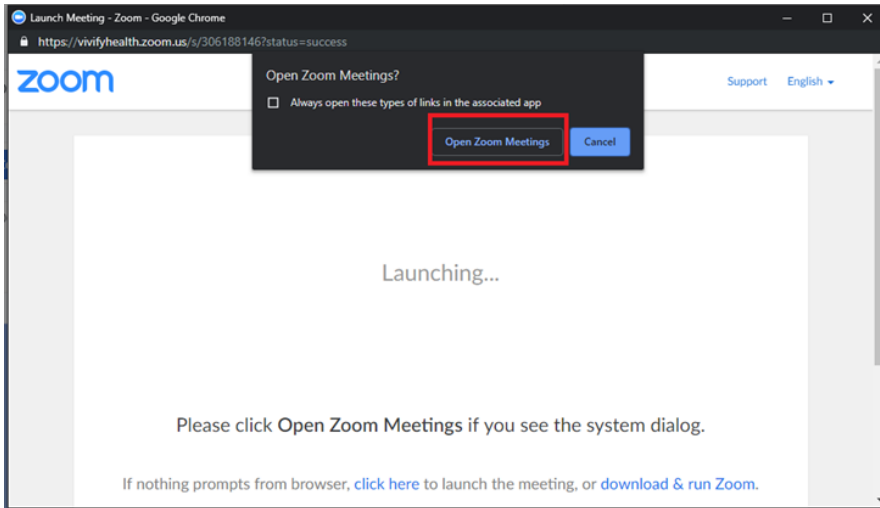

The Respond to a Call Request window appears.

- a. Click **Video Call Now** to conduct a video call with a patient.

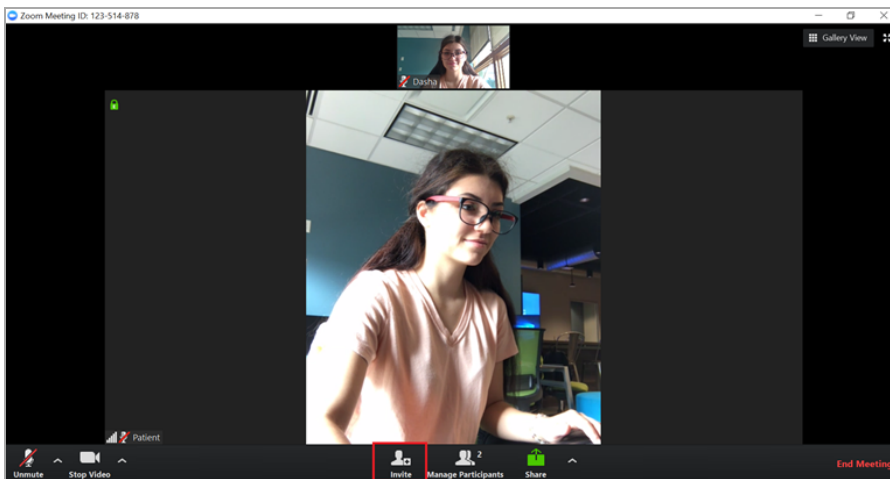

The call request is sent to the patient. The patient's phone rings.

2. Click **Open Zoom Meetings** button.

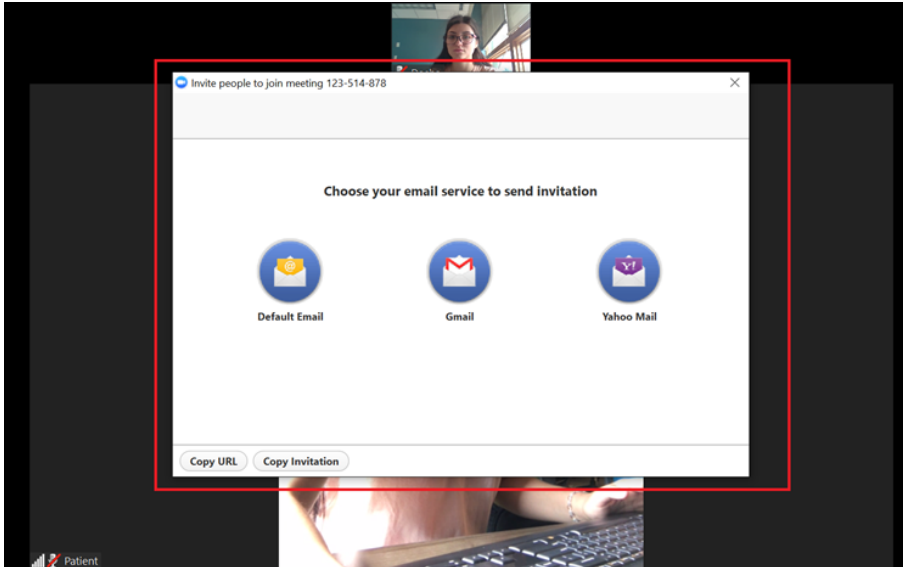

After the patient accepts the call, a new window appears.

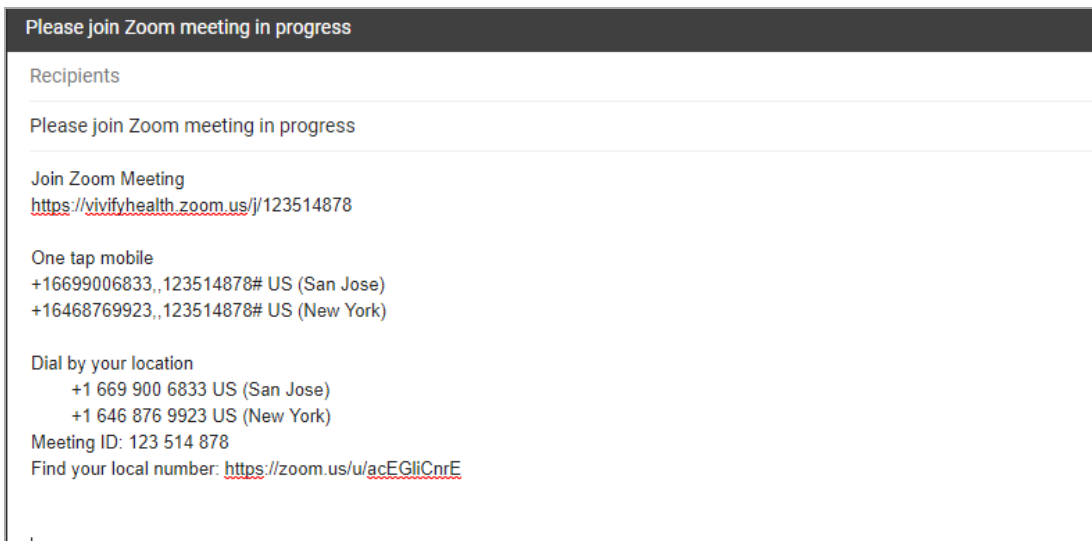

3. Click **Invite** on the bottom of the Zoom Meeting window.

The Invite people to join meeting window appears.

4. Choose an email service to send the invitation.

The email window opens with the data to connect to the call.

5. Send the invite to a person you want to include in the meeting.

The invited person receives an invite and is able to participate in the meeting.
